This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE

THE book which furnished me with the original idea for the present work was Mayhew and Skeat's Concise Dictionary of Middle English. That idea was, in few words, to collect into one volume the information contained in the numerous glossaries to Anglo-Saxon text-books, readers, etc., which had appeared in England, America and Germany within the last fifteen years or so—such books, for instance, as Sweet's Reader, Harrison and Sharp's Beowulf, and Kluge's Lesebuch. But it occurred to me subsequently that we had already so many incomplete Anglo-Saxon Dictionaries that it was a pity not to make my own as comprehensive as possible, and so the following extensions were introduced into my scheme :—

I. I added to my list of glossaries—

a. Wright-Wülker's Vocabularies. (As the glossary to Sweet's Oldest English texts, which comprise the first of those Vocabularies, was already on my list, this extension was an almost inevitable one.)

b. Harrison and Baskerville's translation of Grosschopp's Dictionary of the poetical texts in Grein's Bibliothek der Angelsächsischen Poesie.

c. Leo's Angelsächsisches Glossar. (This, however, has been used very cautiously, in consequence of Leo's constant habit of altering the spelling found in the texts.)

d. A MS. Concordance of my own to the Alfredian MSS. (viz., the Parker Chronicle to A.D. 891 inclusive, the Lauderdale Orosius, and the Hatton and Cotton MSS. of the Cura Pastoralis). This was at first intended for separate publication, and to serve the double purpose of a Concordance and an Index to Cosijn's admirable Altwestsächsische Grammatik.

II. When the analysing and grouping of the above materials was in an early stage I determined to take the list of words appearing in the large Dictionary of Bosworth and Toller (so far as it had been published), and of the older Bosworth of 1838 for the remainder of the alphabet, and after cutting it down by leaving out the words for which no authority is given, proper names, and a few others (mostly obscure words only found in glosses), to use this list by placing against each word all the information contained respecting it in the sources above referred to, and when all these had been exhausted to fall back on BT and Ettmüller, or the older Bosworth to supplement them. The range of the glossaries is so wide that the number of cases in which I have had exclusively to rely on the larger dictionaries has been very small.

III. Although I do not profess to have searched unglossaried matter systematically for new words, I have looked through a few texts (*e.g.* Wulfstan, Dr. Miller's edition of Bede, and the volumes of Anglia, besides the three volumes of Ælfric's Homilies edited by Skeat), and have inserted and given a reference to many words not to be found in the larger dictionaries. Of course any other words which I could not find in those dictionaries in the course of reading other texts as a student, and of which I had kept note, have also been put in. The number of words thus given which are not to be found in the parts of Bosworth and Toller already issued is upwards of two thousand, and there are probably as many in the later section of this Dictionary, which are lacking in the older Bosworth and in Ettmüller.

This book is intended primarily for students, especially for junior students, and for the large body of antiquarians and other persons who are interested in the history, manners, laws, etc., of our Saxon forefathers. Many—probably most—of these latter are quite ignorant of Old English phonology, and cannot be assumed to know that when they find the word *wiarald* in an old charter they ought, of course, to look in the Dictionary for *woruld*. And so I have tried to make the book as useful and as easy of reference as possible for them without neglecting the claims of those who know, or wish to learn, something of phonology.

Passing now to matters of detail, attention may be drawn to a few of the main features of the book.

1. And first, it is more worthy of note than people unfamiliar with Anglo-Saxon Dictionaries and Glossaries would suppose, that the present work is arranged in strictly alphabetical order, for I think every existing glossary or dictionary exhibits some variation from this order. The new dictionary of Bosworth and Toller may perhaps be taken as an exception, but even in that **ȝ** is inserted between **te** and **ti** instead of being treated as a separate letter. To find a word quickly in some of the other vocabularies—such as Ettmüller's Lexicon or the glossary to Heyne's Beowulf—requires a special education and long practice.

2. The standard of spelling—that is, the form of a word under which the meanings are given—is the Early West Saxon, as exemplified in the Lauderdale MS. of Alfred's Orosius, the Hatton and Cotton MSS. of the Cura Pastoralis, and the Parker MS. of the Chronicle up to the year 891 inclusive. When, as is often the case, different spellings of the same word occur in these texts, I have generally followed the guidance of Cosijn's Altwestsächsische Grammatik.

The above rule is, however, subject to one condition, namely, that the spelling given should *actually occur*, and should not be merely an assumed form. Hence if a word does not occur in the characteristic Early West Saxon form, I have taken the Late West Saxon, and if this again is not found, I have fallen back on a dialectic form.

It will no doubt be observed that this plan has not always been adhered to, but the exceptions have usually been made on some ground of expediency, such as the preponderating frequency of occurrence of a certain form, or the desire to bring all the compounds of a word to the same place.

Normalisations have, as will be inferred from what has gone before, been generally avoided. I cannot hope to have excluded them altogether, as they swarm in some of the glossaries on which the Dictionary is founded. A few, which I have noticed at a late stage, have been ear-marked with an asterisk.

I am aware that in adopting actual spellings as my basis I have, to a great degree, sacrificed uniformity of arrangement, and have given the work an unscientific look, and it was accordingly not without a good deal of hesitation that I committed myself to this plan. The chief considerations which decided me were that—

(1) As normalisation is so common in glossaries, etc., it would give the student another string to his bow if a different system were chosen. For instance, the word *fyrlen* occurs in the texts in Sweet's AS. Reader, but it is not to be found in the glossary with that spelling, and only appears in the normalised form *fierlen*. In the present work the student will find it in its proper alphabetical order, as spelt in the text.

(2) By taking a spelling which occurs the number of cases in which one has to look in two or more places for a word is much reduced. A single example will illustrate this, and will also serve to indicate the difficulties with which the compiler of an Anglo-Saxon Dictionary has to contend in the matter of spelling. Under the article *seonuwealt* in the new part of Bosworth-Toller's large Dictionary, twenty-one passages containing examples of the word are given. These twenty-one examples exhibit fourteen varieties of spelling, and Prof. Toller has chosen a fifteenth (normalised) form as his head-word. If therefore a student looks for any one of the twenty-one examples of the word in its proper alpha-

betical order, he will not find it. As regards ten of the spellings, a cross-reference will enable him to get at it (I am assuming that a cross-reference will be given under *syn-*, but that part of the Dictionary has not yet appeared) by looking in two places; but in the other four the student is left to his knowledge of phonology. There is, of course, no such objection to this in the case of a dictionary intended for scholars and advanced students as there would be in that of a work like the present. I happen to have come across this particular word in Wright-Wülker's Vocabularies in the first instance, with the spelling *sinewealt*, and as the word does not, so far as I know, occur in any Alfredian or Ælfrician text, I retained that spelling as my head-form. It so happens that in nine out of the twenty-one instances of the occurrence of the word which are given by BT, it can be found in this Dictionary directly without a cross-reference.

(3) There is still occasionally some risk, in putting forward an assumed form, of its being based on an unsound etymology, although, thanks to the advances made of late years in this department, such wholesale mis-spellings of words in order to bring them into conformity with a supposed etymology as one notices in Leo and Ettmüller are no longer possible. To counteract the drawbacks of my plan as far as practicable, I have put the actual variations of root-vowel in parentheses against the head-form of single words, so that it may be possible for the student to get at all the compounds of that word, with whatever variation of root-vowel they may be found. This will, to a great extent, meet the objection that compounds of the same word, instead of being grouped together with it at one point, are divided between two, three, or even four places in the Dictionary.

Then again, lest the student should suffer from the words not being arranged on a uniform and consistent phonological system, I have given him frequent references to Sievers' Old English Grammar, from which he will be able, if he wishes, to get at the *raison d'être* of any particular spelling he may come across.

3. As regards accent, I have adopted the macron, which I think decidedly the preferable form of diacritic for an elementary work, and have limited myself to that mark alone. In deciding as to whether a doubtful syllable should be marked long or not, I have usually followed Sievers.

4. All words occurring in the Alfredian MSS. have been marked AO, CP, or Chr., as the case may be, and the student thus has in this book a separate Vocabulary of the Early West Saxon dialect. To those, moreover, who can find their way about Cosijn's Grammatik readily that book will now, with the help of this dictionary, serve as a complete Concordance to the EWS texts. Words occurring in the works of Ælfric have also been marked Æ extensively, but not exhaustively.

By means of these markings the classical West Saxon spellings have been discriminated from the rest, and it will also be possible to obtain some notion of the characteristic differences of spelling between Early and Late West Saxon. It should be particularly borne in mind that the references are mainly intended as guides to the *spelling*, and not as an authority for the meanings given, because very often meanings which I have not marked AO, CP, Chr., or Æ do occur in one or other of those texts, but they have not been marked as so occurring because the spelling has not happened to be that which has been chosen for the head-word.

In addition to the above the chief poetical forms have been marked with a dagger, and an attempt has been made to distinguish dialectic forms by occasionally giving a reference to some of the most important non-West Saxon texts, such as the Northumbrian Gospels and Durham Ritual (Northumbrian, which is also denoted generally by the abbreviation N), the Vespasian Psalter (Mercian, also denoted generally by M, or N+M are denoted generally by A, *i.e.* Anglian), and the Kentish Gloss to the Proverbs (Kentish, also denoted generally by K). Words only occurring in the Early Glosses are marked EG, and so forth.

This part of my scheme has only been carried out very partially, owing to want of time, and if an opportunity occurs in the future for my working it out more completely, I shall hope to do so.

Meanwhile, a Comparative Table of the Vowel Sounds of the stressed syllables in the various dialects, which I have inserted at the end of the Preface, will give further help in this direction.

5. References to particular passages have, as a rule, only been given in the case of rare words, or words occurring only once. A good many such references will be found in the first half of the dictionary, because I have made it a rule to quote my authority for all words not given by Bosworth and Toller. Similarly, in the section from S to the end, references are inserted for words not to be found in Ettmüller, Grosschopp, or the older Bosworth.

6. Copious references have been made to the Grammatical Introduction to Sweet's Reader—the best elementary Anglo-Saxon Grammar which has yet been published in England—and (for the benefit of more advanced students, especially those interested in Phonology) to Cook's translation of Sievers' Old English Grammar. Occasional references will also be found to Cosijn's Altwestsächsische Grammatik.

7. An unusually large number of cross-references have been given. All the parts of a strong verb which would come in a different place to the infinitive in the alphabetical order have been separately inserted, and a great many variations of spelling have also been recorded. To have included *all* the known variations would, of course, have been a hopeless task; but I have added at the end of this Preface some tables, which will, I hope, be of use to the student in cases where he does not readily find the word he requires.

8. A good deal of care has been expended upon the homonyms, which are unusually frequent in Anglo-Saxon, and are calculated to give no little trouble to the beginner.

9. So far as etymology is concerned, I have limited myself to giving related Anglo-Saxon words, and occasionally referring to cognate words occurring in other languages. Such words are put in brackets at the end of the articles, and it should be carefully borne in mind that they are often *not* the words from which the Anglo-Saxon word under which they are put is derived. I have given a good many cognates in German, where they may possibly appear superfluous to an Englishman, with the view of helping any German student into whose hands the book may come.

The only help which I am conscious of having withheld from the student is that which might have been afforded by the division of each word into syllables by means of hyphens. The ordinary Anglo-Saxon compound word is, however, so very easy to dismember, and it is such a profitable exercise for the learner to try and break up the words for himself, that I decided to leave it for him to do. Less weighty reasons were (1) that I wished the words in the dictionary to have as nearly as possible the same appearance as they have in a text (hence also my sparing use of diacritics), and (2) that with such narrow columns as were fixed upon the addition of hyphens would have materially increased the length of the book.

I have long felt the need of a small Anglo-Saxon Dictionary to be an urgent one, and the degree of urgency has seemed to me to increase year by year. When, therefore, reports of the proposed formation of a new School of English Language and Literature at Oxford reached me I resolved that, if possible, such a School should at any rate have something better to begin with in this respect than the Ettmüller or Bosworth of forty or fifty years ago.

This pressing need has impelled me to publish the work before it has reached the degree of completeness which I had at one time hoped to give it. I had intended, for instance, to make my references to Ælfric's writings as exhaustive as those to the Alfredian texts, and to have added considerably to the number of references to the non-West Saxon texts, but this would have involved so much labour and delay that I determined to leave it over for a time. If a second edition is called for, I shall hope to give this matter further attention, and to improve the Dictionary in other respects. In connection with this point I may say, firstly, that it has been arranged that the present edition shall not be stereotyped, so that there shall be no restriction to the number and extent of the alterations if a reprint becomes necessary; and, secondly, that if any one notices any errors or omissions

in the following pages I should be most thankful to receive notification of them, addressed to me at the office of the publishers in London.

I am under great obligations to several friends for help and counsel, but amongst them I feel bound especially to mention Professor Georg Fiedler, of Mason College, Birmingham, who has been kind enough to revise the proof-sheets throughout, with reference more particularly to questions of accentuation and etymology, with respect to which I have thus had throughout the advantage of his sound scholarship. I am also indebted to him for valuable suggestions made during the earlier stages of the work.

In the examination and arrangement for my purposes of the German glossaries I have used, careful assistance has been rendered by Miss Mary Hayes and Miss Amy C. Morant, both late of Newnham College, Cambridge.

J. R. C. H.

Bad-Ems,
1st June, 1894.

TABLE I.

COMPARATIVE TABLE OF VOWEL SOUNDS OF THE OLD ENGLISH DIALECTS IN STRESSED SYLLABLES.

WEST GERMANIC.	EARLY WEST SAXON (AO, CP, CHR.)	LATE WEST SAXON (Æ.)	KENTISH		ANGLIAN		MODERN GERMAN.

gc	cg, g	pt	ft
h-	wanting	r-	hr-
hw-	w-	ð final, in persons of verbs	t
i	ie	u (cons.)	w or f
i (final)	ig	-u	-o
ie	i	w-, wh-	hw-
ii	ī	y	ie, i, e
		-ynd	-end

Where the letters in col. 1 are found in words occurring in a text, the words *may* appear in the Dict. with the letters shown in col. 2.

This Table shows—

(1) The preferred forms and occasional normalizations in a few cases of root and other vowels. The only instances of importance are *io*, *to* (as in hwĭol=hwēol), and *om*, *on*, and these are very often indicated by a cross-reference.

(2) Some preferences and normalizations of unstressed syllables; *e.g.* when an adj. only occurs with the ending *-eg* it is spelt in the Dict. with the regular ending *-ig*.

(3) A few graphic variants, as where *oo* is written for *ō* (*e.g.* oom=ōm), and some alternative consonantal forms (*e.g.* brygc=brycg).

TABLE III.

The Root-Vowels of Strong Verbs.

	Root-Vowel of				Name and Number of Class.
	Infinitive.	Pret. 1, 3 Sg.	Pret. Pl.	Perf. Ptc.

Anglo-Saxon	a	ō	ō	a	
Anglo-Saxon	ea, o, ēa, ō āw, wā-	ēo	ēo	=inf.	Reduplicating Verb. 'Fall' Sievers RV. Sweet 1
	ān(on)+cons. æ, ā (exc. āw-, wā-)	ē	ē	=inf.	

The above table shows the usual classification of Strong Verbs in AS, and explains the abbreviations used after the infinitives of those verbs in the Dictionary. See also explanation of sv. in list of abbreviations. Thus the abbreviation sv3. following **belgan** means that belgan is the infinitive of a strong verb of Sievers' Third class (Sweet's Third, and Grosschopp-Grein's First class), that it has pret. 1, 3 sg. bealg, pret. pl. bulgon and pp. bolgen. The correspondences in Germanic, Gothic and Icelandic are also given.

TABLE IV.

INDEX TO THE GRADED AND MUTATED VOWELS FOUND IN THE PARTS OF STRONG VERBS.

TEXT.		DICT.	Class of Verb. (Sievers).	TEXT.		DICT.	Class of Verb. (Sievers).

i (EWS)	pres. 3 sg.	e, eo	3,4,5				
i (LWS)	pres. 3 sg.	u					

This table is intended to help the student in cases where he comes across a part of a verb which he cannot find in its alphabetical order in the Dict. It may be, for instance, that such a form as **bielg8** occurs somewhere, although I have never met with an example, and have therefore not inserted the word in the body of the work. In the event of the student coming across such a form, and having reason to believe that it was some form of a verb, he could, by referring to this table, ascertain that it should be the 3rd person singular pres. indic. of a verb of which the root-vowel of the infinitive should be *a, e, ea* or *eo*. By substituting these vowels for *ie*, and looking in the Dict. for the four possible infinitives, he would find that **belgan** was the infinitive he wanted.

LIST OF ABBREVIATIONS

WITH THEIR EXPLANATION

a	accusative.
A	Anglian; *or* (if followed by numerals) Anglia, Zeitschrift für Engl. Philologie. Halle, 1877, etc.
Æ	Ælfric. References followed by numerals in parentheses refer to Homilien und Heiligendleben, vol. iii. of Grein's Bibl. der Ags. Prosa. Where the figures are not in parentheses the reference is to Ælfric's Homilies, vols. i., ii. and iii., ed. Skeat (EETS). ÆSwt.= Sweet's selected Homilies of Æ. Clar. Press, 1885. (LWS)
ÆGl.	Ælfric's Glossaries (in WW., cols. 104–191, *or* in Zupitza's ed. of ÆGr). (LWS)
ÆGr.	Ælfric's Grammatik und Glossar, ed. Zupitza. Berlin, 1880. (LWS)
ÆSwt.	*see* Æ.
Andr.	the poem of Andreas, ed. W. M. Baskerville. Boston, 1889; or in Gr.
anv.	anomalous verb.
AO	Alfred's translation of Orosius (Lauderdale MS.), ed. Sweet. EETS, 1883. (EWS)
ASL	Earle's Anglo-Saxon Literature. London SPCK, 1884.
asf.	accusative singular feminine.
asm.	accusative singular masculine.
B	Bosworth's Anglo-Saxon Dictionary. London, 1898; *or* the Abridgment of it. London, 1849.
BC	Cartularium Saxonicum, ed. Walter de Gray Birch. London, 1888, etc.
Beo.	the poem of Beowulf. The references are to Harrison and Sharpe's edition. Ginn & Co., Boston, 1888; *or* to Heyne's 5th edition, revised by Socin, Paderborn, 1888.
BH	the Anglo-Saxon version of Bede's Ecclesiastical History, ed. Thomas Miller. EETS, 1891.
Bl.	the Blickling Homilies, ed. Morris. EETS, 1874–1880.
Boet.	Alfred's translation of Boethius, ed. Fox. London, 1864.
BR	Bright's Anglo-Saxon Reader. London (Sonnenschein), 1892.
BT	Bosworth and Toller's Anglo-Saxon Dictionary. Parts I.–III. and Part IV. § 1. Oxford, 1882–1892.
Chr.	Anglo-Saxon Chronicles, as contained in Two of the Saxon Chronicles, Parallel, ed. Earle and Plummer. Oxford (Clarendon Press), 1892. If Chr. stands alone, the reference is to the EWS Parker MS. (lettered A in Earle and Plummer) up to the year 891. If Chr. is followed by numerals, these indicate the year, and the small letter (A, B, C, D, E, or F) after the date indicates the MS. as distinguished in Earle and Plummer. (WS)
Cos.	Cosijn's Altwestsächsische Grammatik. Haag, 1888.
CM	the Tract 'de Consuetudine Monachorum' in Anglia, vol. xiii. pp.
CP	Alfred's translation of Gregory's Pastoral Care, ed. Sweet. EETS, 1871.
Cp.	Corpus Glossary in OET, *or* in WW., cols. 1–54. (M)
cp.	compare.

Lar.	the poem 'Fæder Lärcwidas,' in Gr.
LC	*see* EC.
Lcdm.	Cockayne's Leechdoms, Wortcunning and Starcraft of the Anglo-Saxons. London, 1864.

LEG. ANDR.	the Prose Legend of St. Andrew, in BR.
LEO	Leo's Angelsächsisches Glossar. Halle, 1877.
LK.	the Gospel of St. Luke in Anglo-Saxon, ed. J. W. Bright. Oxford (Clar. Press), 1898.
LWS	Late West Saxon.
m	masculine.
M	Mercian.
MA.	the poem of the Battle of Maldon, or Byrhtnoth's Death, in GR., SR, or KL.
MENOL.	The Menologium, at the end of Earle and Plummer's Two of the Saxon Chronicles Parallel. Oxford (Clar. Press), 1892.
MET.	the Metres of Boethius, in BOET.
MLN	Modern Language Notes. Baltimore, 1886–1898.
n.	nominative or neuter.
N.	note.
N	Northumbrian. See note (*).
nap.	nominative and accusative plural.
neg.	negative.
NG	the Northumbrian Gospels (Matt., Mk., Luke and John in Lindisfarne MS.; Mk., Luke and John in Rushworth MS.), in Skeat's Gospels in Anglo-Saxon and Northumbrian. Cambridge, 1871–1887.
occl.	occasional, occasionally.
obl.	oblique.
OET	Sweet's Oldest English Texts. EETS 1885. [The abbreviations used by Sweet for the texts included in this work have occasionally been used by me.]
OFr.	Old French.
OHG	Old High German.
ON	Old Norse.
p.	page, or plural.
pl.	plural.
P	Pogatscher's Lautlehre der Lehnworte im Altenglischen. Strassburg, 1888.
PB	Paul and Braune's Beiträge zur Geschichte der deutschen Sprache und Literatur. Halle, 1875–1898.
PHOEN.	the poem of the Phœnix, in GR. or BT.
phr.	phrase.
pp.	perfect participle.
pret.	preterite.
Ps.	Psalter; either (1) metrical, in GR., or (2) in prose, ed. Thorpe, 1884, or Spelman, 1640.
ptc.	participle.
RB	Benedictinregel, ed. A. Schröer. Cassel, 1888.
refl.	reflexive.
RID.	Riddles (Metrical), in GR.
RIM.	the Riming Poem, in GR.
ROOD	the poem of the Rood, in GR.
RUIN	the poem of the Ruin, in GR.
rv.	reduplicating verb.
s.	singular.
S	Sievers' Old English Grammar, translated and edited by A. S. Cook. Boston, 1887. [The references to sections will generally be found to be correct for the German edition (Halle, 1886), but now and then the numbers may be one or two out.] Sections 1–234 deal with Phonology, and Sections 235–430 with Inflection.
SAT.	the poem of Christ and Satan, in GR.
sb.	substantive.
SB	Strattmann and Bradley's Middle English Dictionary. Oxford (Clar. Press), 1891.
SC.	the Liber Scintillarum. EETS, 1889.
SCHMID	Gesetze der Angelsachsen, ed. Reinhold Schmid. Leipzig, 1858.
SEAF	the poem of the Seafarer, in GR., KL. or WÜ.
sf.	strong feminine substantive.
sg.	singular.
SKED	Skeat's Etymological Dictionary. Second edition. Oxford, 1884; or the Abridgment of it (Fourth edition). Oxford, 1887.

(*) Although for the sake of uniformity the infinitives of verbs occurring in Northumbrian texts have been given as ending in -an, it must be borne in mind that the final n of the infinitive is absent in Northumbrian.

sm.	strong masculine substantive.
sn.	strong neuter substantive.
Sol.	Solomon and Saturn, in Gr.
Soul	the poem of the Soul, in Gr.
sup.	superlative.
SR	Sweet's Anglo-Saxon Reader. Sixth edition. Oxford (Clar. Press), 1888.
sv.	strong verb. [The numeral following sv. gives the class of strong verb according to Sievers' arrangement set out in Table III., which also shows Sweet's arrangement in SR.]
swv.	strong-weak verb.
TC	Thorpe's Diplomatarium Ævi Saxonici. London, 1865.
Th. Ap.	Thorpe's ed. of Apollonius of Tyre. London, 1834.
trans.	transitive.
usu.	usual, usually.
v.	vide.
VH	Vespasian Hymns, as contained in OET.
v.l.	varia lectio.
VP.	the Vespasian Psalter, as contained in OET. (M).
w.	with.
W	Wulfstan's Homilies, ed. A. Napier. Berlin, 1883.
Wand.	the poem of the Wanderer, in Gr. or Kl.
wf.	weak feminine substantive.
Widsith	the poem of Widsith, in Gr., Kl. or Wü.
wm.	weak masculine substantive.
wn.	weak neuter substantive.
WS	West Saxon.
Wü.	Wülker. [The source of the references to Professor Wülker is most frequently his Kleinere Ags. Dichtungen, but as that book is now out of print, references to it are not given.]
wv.	weak verb.
WW	Wright and Wülker's Old English Vocabularies. London, 1884. Columns 1-54=Cp; 55-88=KG; 104-191=ÆGl.
ZDA	Zeitschrift für deutsches Altertum. Leipzig and Berlin 1856–1898. (The earlier numbers are occasionally referred to as HZ.)
Zup.	Zupitza. [The source of the references to Professor Zupitza is usually his Alt- und Mittel-Englisches Lesebuch. Wien, 1883. A new edition of this has lately appeared in English. ed. G. E. MacLean. (Macmillan)]
*	an asterisk affixed or prefixed to a word denotes that it is a hypothetical or assumed form.
‘ ’	words enclosed between quotation marks are the Latin words actually given in glosses or texts as equivalents for the Anglo-Saxon words against which they are placed in the Dictionary.
†	a dagger affixed to an Anglo-Saxon word denotes that it occurs exclusively, or almost exclusively, in poetical texts. [Only the most important poetical words, and not the compounds formed from them, which are very numerous, are thus marked.]

NOTES

1. Vowels in parentheses coming immediately after an Anglo-Saxon word in thick type are variations of the root vowel found either in the simple form of the word, or in compounds of it, or both. Thus **nīed** (ē, ēa, ēo, ī, ȳ) means that the spellings nēd, nēad, nēod, nīd, nȳd are also found, either alone, *or* in compounds, or alone *and* in compounds. Hence, when a student comes across a compound word which he cannot find in the Dictionary as spelt in his text, he should try the other spellings indicated between parentheses under the head-word. If the vowels between parentheses are followed by numerals, these refer to the order of the syllables. Thus **fiftīene** (ȳ¹, ȳ²) means that in the first syllable ȳ is found instead of ī, and in the second ȳ is found instead of īe.

2. Numerals in the old style type (1 2, 3, 4, etc.) refer to lines; those in modern type (1, 2, 3, 4, etc.) to pages, sections, or chapters.

3. The gender, number and case abbreviations will often be found in combination; thus gsf. = genitive singular feminine; dmn. = dative masculine and neuter, and so forth.

CORRECTIONS AND ADDITIONS

ādrēosan : *strike out* to go through, run through. CM 280.
ādȳdan *means also* to mortify.
æ : *for* Cristes *read* Crīstes.
æddre, *read* ædre.
ædre I., *add* wf.
æfenspræc, *read* æfenspræc.
æfterhȳrigean, *read* æfterhyrigean.
ægergeolu, *read* ægergelu.
æmūða : = *should be struck out.*
ærendraca *means also* representative, substitute, proxy.
æscwiga, *read* æscwiga.

æmerian : *strike out* (VP).
angsumness *means also* difficulty, perplexity.
aprotane wm., *read* aprōtane wf.
ast, *read* āst.
āstandenness *means also* substance.
āstreccan *means also* to be erect, haughty.
ātter, āttor, *read* atter, attcr.
ātȳdran : *for* tūddor *read* tūdor.
ātyhtan *means also* to stretch, extend, turn, direct.
aðamans, *read* āðamans.
āðracian, *read* āðrācian.
āðrōwen, *read* āðrowen.
*āðrutan, *read* āðrūtan.
āwidlian, *read* āwidlian.
bæsu : *strike out* EG.
bedwahrift, *read* bedwāhrift.
befæstan, *strike out* VP.
belcedsweora, *read* belcedswēora.
beornwiga, *read* beornwiga.
bescitan, *read* bescītan.
betonice, *read* bētonice.
beðoht, *read* beðōht.
beūfan=būfan, *read* beufan=bufan.
bita 2 *should form a separate article*, bita wm.
blāddre, *read* blæddre (S 280).
blēgen, *read* blegen.
blōdseax, *read* blōdsæx.
Bretwalas, *read* Bretwālas.
brūcan *is* sv2. (*not* 3).
brȳsan *also means* to season.
burg : *for* S 384 *read* S 284.
burhspræc, *read* burhspræc.
byrðīnenu, *read* byrðīnenu.
calc II.=cealc
calic, *read* cālic.
cucler *is* sn.
cumpæder, *read* cumpāder.
cuneglæsse, cunel(l)e, cunille, *read* cūneglæsse, cūnel(l)e, cūnille.
cwȳsan : *for* 'quash' *read* 'squeeze.'
cyleðenie, *read* cȳleðēnie, cēleðōnie.
cȳte=cēte, *read* cyte=cete.
dæftan *means also* to level, make smooth.
drenc *is* sm., *not* wm.
efenðwær, *read* efenðwār.
fēferādli, *read* fēferādl.
fiscwēr, *read* fiscwer.
forswelan *is* sv4. *not* sv5.
gehlytto *is* sf., *not* sn.
gehroden : *for* *gehreoðan *read* *gehreodan.
gescēot I. *should be* gesceot, *and the meaning* (shooting, hurling) *should be given under* 3 *is* gescot I.
gestal, *read* gestāl.
habban : *for* anv. *read* wv.
hlāden, *read* hlæden.
ligspiwel, *read* ligspīwel.
